ABOUT ISF FOOTBALL

INTRODUCTION

ISF World Schools Championships (WSC) are events characterized by a balanced program between sport and educational content: the balance between sport and education is to create awareness about the role of sport in putting forward topics such as fair play, and healthy lifestyle, respect, inclusion.

WSC is open to the participation of school teams. Besides the name of the respective member, teams will defend the colors and name of the specific school they represent. This format is meant to create a strong identification between the students and the school they attend. WSC is team competition, meaning that team results are awarded by trophies, medals, and certificates.

Each ISF member may enter the competition with more than one school team per category.

School Sports Entities or schools from School Sports Entities that are not members of the ISF can take a part in ISF events provided that they follow all ISF regulations and that the institutions that wish to enter the event are recognized by an official national or sports authority.

Age categories for WSC's are outlined in their respective sport-specific rules. The educational program and the sports format of the event shall always be adapted to the age of participants: in general, in events for lower age categories, the educational content will have a more prominent role.
