SAFEGUARDING CHILDREN IN SPORT & ANTIDOPING WORKSHOPS

As well as various webinars taking place several days before the event to support the Head of Delegation and Coaches in preparing their mission within an ISF event (these online educational & capacity building activities are compulsory to attend for all the following adults' stakeholders taking part in ISF events), the ISF's promotion of school sport by the ISF Academy through its international events also involves the transmission of knowledge through workshops on two themes that are dear to us all: **Safeguarding Children in Sport** and **Doping Prevention in Sport**. ISF firmly believes that children have and must have the necessary inner resources, through these workshops, to understand, identify and react to negative behaviour such as racism, gender inequality or violence and abuse. The challenge for ISF is to find the right way to express difficult ideas and present complicated topics to young people so that they understand, but also so that they correctly apprehend this problem and are able to react to it.

Raising awareness and enabling participants to transfer their knowledge to their peers back home are also key elements of ISF. During this event, athletes from all over the world will attend several workshops sessions given by experts in the field, passing on their knowledge and experience through dedicated, constructive and interactive pedagogy.

Safeguarding and Anti-doping seminars will be organize on **19th, 20th and 21st of May** in the afternoon hours.

GOOD TO KNOW

CHINA TRAVEL ADAPTORS

You will need to consider what to pack, to ensure you can use your personal electrical appliances safely whilst abroad. This normally includes the use of a travel adaptor, which is a device that simply allows you to plug any electrical appliance into a foreign electrical socket. It is important to note that it does not convert the voltage or frequency.

For China there are two associated plug types, types A and I. Plug type A is the plug which has two flat parallel pins and plug type I is the plug which has three flat pins in a triangular pattern. China operates on a 220V supply voltage and 50Hz.
