A photograph of a cave interior. A blue light source, possibly a flashlight or a small lamp, is positioned on a rock ledge, casting a bright blue beam of light onto a pool of water below. The cave walls are composed of rough, layered rock formations. The water is dark and still, reflecting the blue light. The overall atmosphere is mysterious and dramatic.

ANTI DOPING INFORMATION

EDUCATIONAL AWARENESS AT THE EVENT IN ZLATIBOR, SERBIA

ISF adopted the anti-doping rules last year. Therefore, all WADA guidelines regarding education are binding for us. ISF being a WADA code signatory is promoting clean sport as one of the main values applied during its events.

All delegations are expected to participate in the workshop that will be organised in Zlatibor.

PART 3

ISF ACADEMY

ISF U15 GYMNASIADE 2025

ISF ACADEMY

The ISF Academy is the educational center of the International School Sport Federation delivering online and onsite capacity-building activities for teachers, school sports representatives, coaches, officials, and students around the world. It aims to recognize and or to upgrade the knowledge and skills of any of these stakeholders involved or planning to be involved in national, continental, or international sports, educational networks, institutions, events, or organisation.

The mission of this body is to design and deliver short-, mid-, and long-term quality education and capacity-building activities for students, physical education teachers, national school sport representatives, coaches and officials around the world. These educational programmes will be held online on the ISF Academy platform prior to the events and particularly during the organisation of ISF events on-site, after the competition hours.

Therefore, before and during this international ISF event, heads of delegation, coaches, referees, international school athletes, and local school students will have the opportunity to take part in various interactive educational activities on different topics.

▶ SAFEGUARDING CHILDREN IN SPORT & ANTIDOPING & INJURY PREVENTION WORKSHOPS

As well as various webinars taking place several days before the event to support the Head of Delegation and Coaches in preparing their mission within an ISF event (these online educational & capacity building activities are compulsory to attend for all the following adult stakeholders taking part in ISF events), the ISF's promotion of school sport by the ISF Academy through its international events also involves the transmission of knowledge through workshops on three themes that are dear to us all: **Safeguarding Children in Sport, Doping Prevention in Sport and Injury Prevention**.

ISF firmly believes that children must, through these workshops, develop the necessary inner resources to understand, identify, and react to negative behaviors such as racism, gender inequality, violence, and abuse, as well as to gain proper knowledge about doping and appropriately address mental health issues among athletes.

The challenge for ISF is to find the right way to express difficult ideas and present complicated topics to young people so that they understand, but also so that they correctly apprehend this problem and are able to react to it.

Raising awareness and enabling participants to transfer their knowledge to their peers back home are also key elements of ISF. During this event, athletes from all over the world will attend several workshop sessions given by experts in the field, passing on their knowledge and experience through dedicated, constructive, and interactive pedagogy.

Therefore, **all athletes participating in ISF events are required to attend the ISF Academy's seminars** on safeguarding children, anti-doping, and Injury prevention. These seminars are scheduled to **take place on April 6th - 11th**, in the afternoon after competition. Specific delegation time slots will be communicated during the event briefing.

► IFs Experts delivering daily Workshop

The ISF Academy collaborates with various International Federations (IFs) to provide **On-site training for educators such as local coaches**. Experts from each IF conduct these training sessions, which are designed to ensure the best performance and physical and emotional safety for athletes. The training is customized by sport and combines theoretical knowledge with practical application.

The following IFs have participated in its organization.
