

ISF U15 GYMNASIADE

Zlatibor, Serbia 2025

FAMILY & FRIENDS PACKAGE

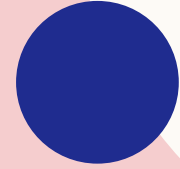

WELCOME TO ZLATIBOR, AND EXPERIENCE FAMILY & FRIENDS PACKAGE

From **April 4th to 14th, 2025**, the beautiful **Zlatibor mountain** will host the **ISF Gymnasiade 2025** sport event, bringing together young athletes U15 from all over the world. As we celebrate sportsmanship, talent, and youth, we invite families, parents, and friends accompanying their young competitors to experience an unforgettable adventure with our **Family & Friends Package**.

Our tailored package offers comfortable accommodation in selected hotels with the service of your choice, ensuring a relaxing and enjoyable stay. But that's not all—our **Family & Friends Package** goes beyond accommodation, offering an array of exciting activities and excursions.

EXCITING ACTIVITIES AND EXCURSIONS.

-  **Ride the World's Longest Single-Section Cable Car:** Soar above Zlatibor's breathtaking landscapes.
-  **Visit Dino Park:** A thrilling experience for all ages in the biggest thematic park in region
-  **Explore Stopića Cave:** Discover the natural beauty of this magnificent cave.
-  **Experience Ethno Village Sirogojno:** Step back in time and learn about Serbian tradition and culture.
-  **Witness the Waterfalls in Gostilje:** Marvel at nature's wonders.
-  **Discover „Drvengrad“ in Mokra Gora:** A charming wooden town built by filmmaker Emir Kusturica.
-  **Ride the famous „Šargan Eight“ railway:** Travel through history on this vintage train journey.

GOLD GONDOLA

With its impressive nine kilometers long route, it now has the title of the longest panoramic gondola in the world. **Zlatibor's Gold Gondola** connects the center of Zlatibor with the 1,496 meters high Tornik peak and ski resort, which is also the highest peak of the mountain. With a current capacity of 600 passengers per hour in 54 separate cabins with 10 seats each, the gondola provides tourists with an unforgettable experience and 25 minutes, which is how long is a one-way ride, of enjoying the picturesque landscapes of Zlatibor.

The gondola has one intermediate station on Lake Ribnica, where the development of the Novi Zlatibor project is planned (high category tourism, on over 200 ha of land).

Gold Gondola is open to visitors every day.

The first ride starts at 08:30 AM from the terminus on Zlatibor. The last ride from the terminus on Zlatibor is at 03:00 PM (from Zlatibor to Tornik). The last ride from the terminus (from Tornik to Zlatibor) is at 04:00 PM.

DINO PARK

On an area of 3 ha there is a lot of content for children, but also for adults: adventure park, zip line, artificial rock climbing, children's dino village, 6D cinema, polygon for roller skating and quads for children...

Working hours of Dino Park are all days from 09 AM to 8 PM.

STOPIĆA CAVE

Stopića cave is a river cave with the Trnavski stream flowing through it. It consists of three speleological and hydrologic horizons: the periodically flooded horizon, the river horizon and the youngest horizon the crack. Without its youngest system Stopića cave is 1,691.5m long, it covers the area of 7,911.5 m² and its volume is over 120,000 m³.

There are five units of Stopića cave: the bright hall, the dark hall, the great hall with baths, the canal with baths and the river canal. The tourist part of the cave has got some attractive elements like: spacious entrance, “dugure”-the openings on the ceiling, sipar arch “Dog’s cemetery”, “The source of life” waterfall and a number of “siga” tubs.

Because of their uniqueness, the "siga" tubs are the greatest attraction of the cave. They were made by deposited limestone. They are dents bordered by walls of stone or by winding vermilion “siga” wrinkles in which water collects and later flows over the tubs to the lower ones.

River canal there is a whirlpool above which “siga” toboggan arises. It becomes the “siga” cascades between which there are the “siga” tubs and “enormous pots”.

Opening hours: 09:30 – 16:30

ETHNO VILLAGE SIROGOJNO

26 km away from the tourist centre Zlatibor, in the village Siirogojno, there is the only open air museum in Serbia "Staro Selo". On a 5 hectare location beside St. Peter and Paul's church, old log houses were brought from all parts of Zlatibor to be presented and preserved here.

The museum has got two entireties. The first is a group of houses which have kept initial look and purpose and they make a museum display formed into two Zlatibor farmsteads. The second whole is a group of houses that have preserved their original look but their purpose has been changed; they have been adopted for tourist needs. They are a hall, a souvenir shop, an inn, apartment buildings...

The two Zlatibor farmsteads in the permanent museum display are testimony of living culture in Zlatibor region at the end of 19th century and the beginning of 20th century. The way of life in these houses was specific because they lived in extended family groups (cooperatives) with up to 50 members. The museum has been made of Zlatibor log cabins that belong to Dinara-type log cabins.

Opening hours: 09:00 – 16:00

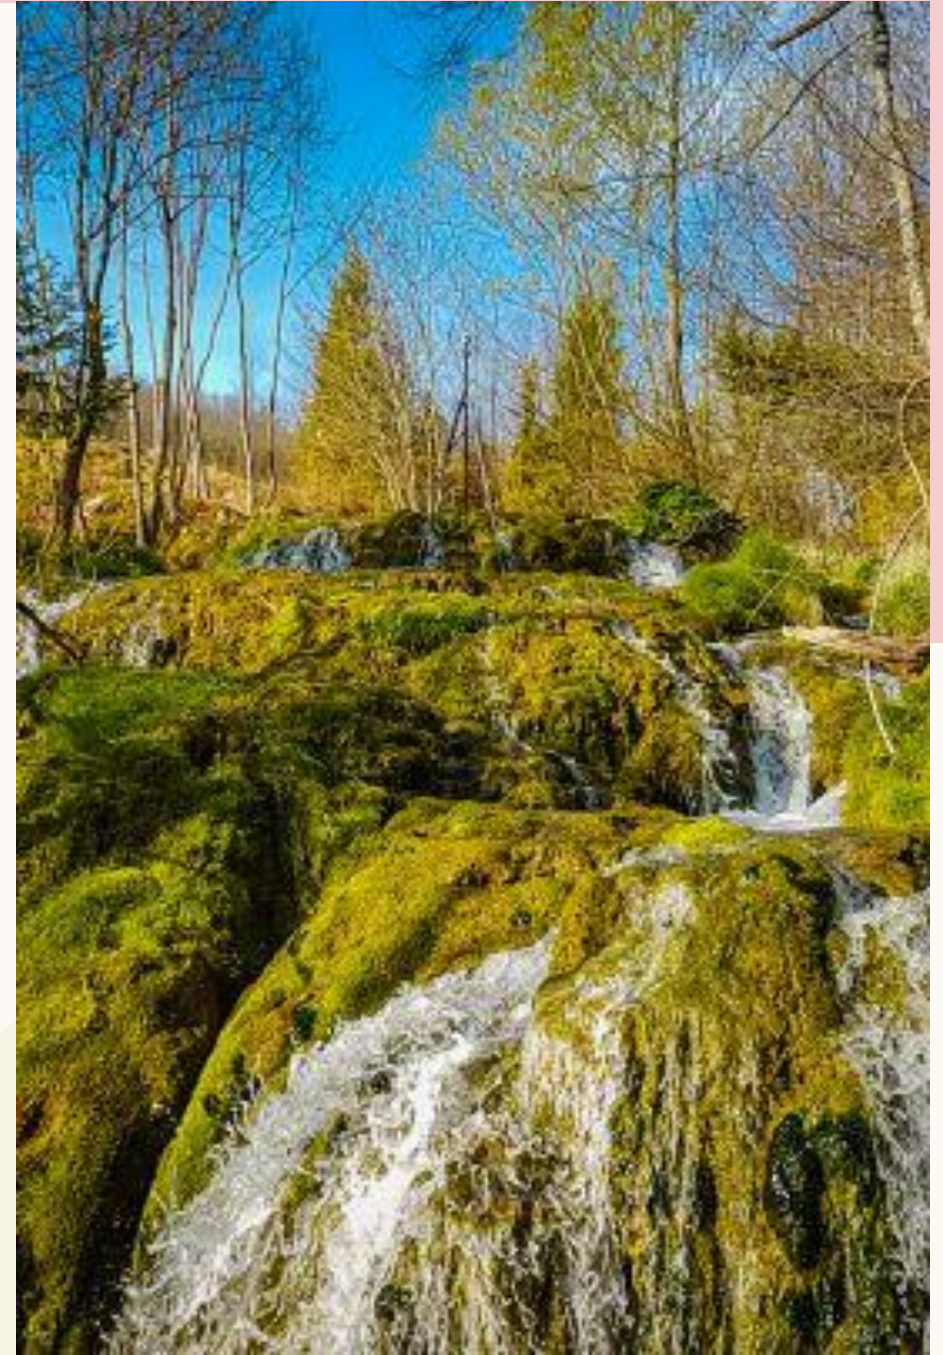

WATERFALLS IN GOSTILJE

Gostilje waterfall is certainly one of the most attractive hydrologic values of Zlatibor. It is situated in the village Gostilje, about 25 km away from Zlatibor centre.

Before the confluence of the river Katušnica the water of Gostilje river pours down the 20 m high limestone cliff, forming thus a unique waterfall. Downstream the brook forms some smaller waterfalls and cascades until it joins the river Katušnica.

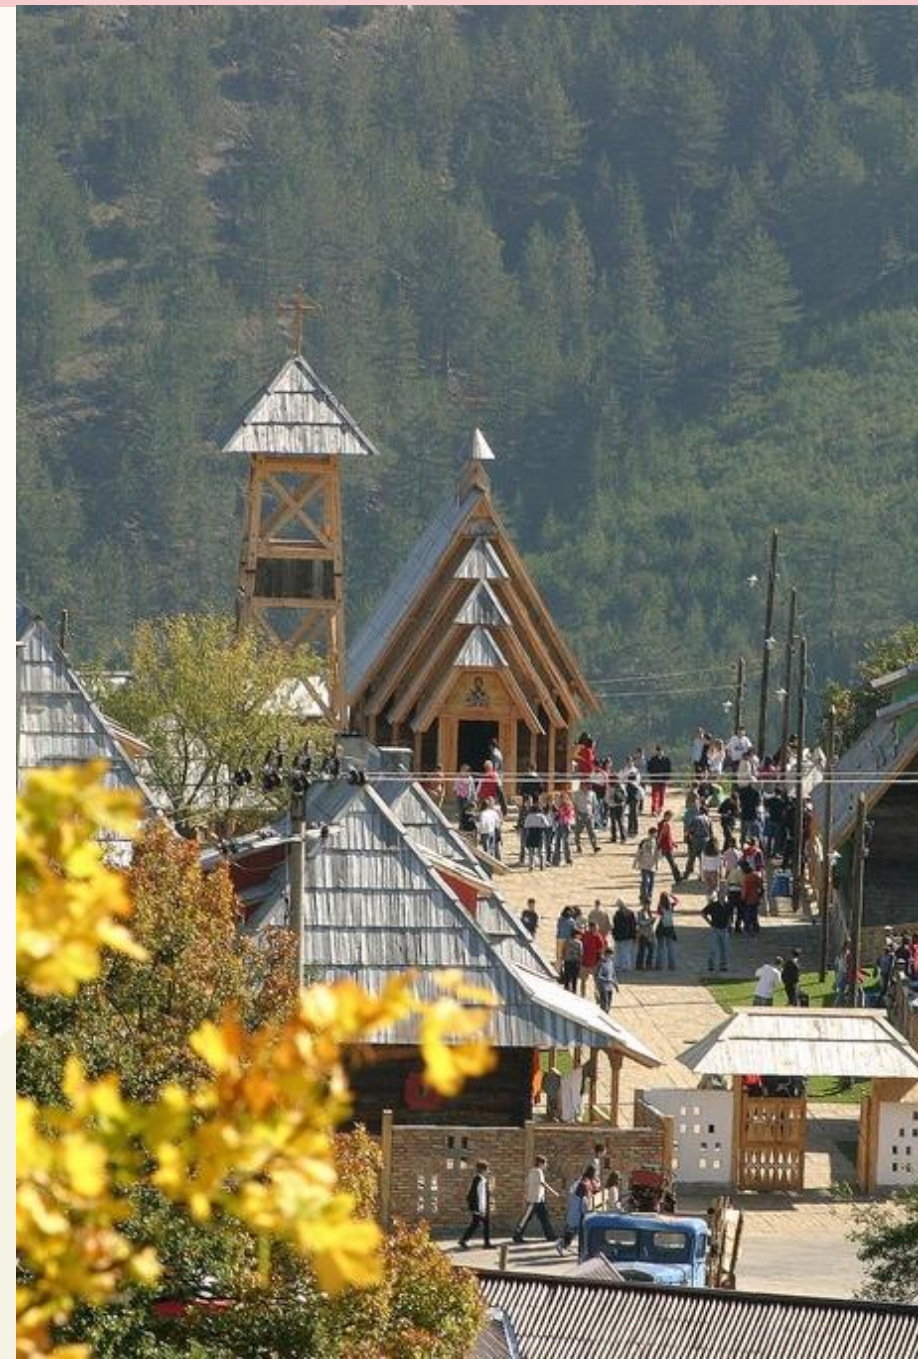

Opening hours: 09:00 – 17:00

„DRVENGRAD“ IN MOKRA GORA

On the nearby hill **Mećavnik** there is an ethno village „**Drvengrad**“ built in local ethno style by the film director **Emir Kusturica**. Visitors can breathe in the atmosphere, try local food and buy hand - made souvenirs as well as enjoy in local cinema cinematography

On the east of Mokra Gora the village **Kremna** is situated. It is known for prophets Milan Tarabić (1809 - 1854) and his better known relative Mitar Tarabić (1829 - 1899).

OLD RAILWAY TRACK ŠARGAN EIGHT

Šargan Eight is the Europe's most attractive narrow gauge museum railway, mentioned as the masterpiece among the similar railways. From 1925 until 1974 the railway connected Belgrade to Sarajevo and kept the doors of Mokra Gora Mt. open to the world.

As predicted by Mitar Tarabić, the famous prophet from the nearby village of Kremna, a railway had been built and then forgotten. However, people did remember it and the railway was rebuilt as a visitor attraction. Today, the sounds of wooden wagons on steel rails can once again be heard between Šargan and Mokra Gora. Travelling the famous figure of eight route, it's almost impossible for passengers to determine where the train has already passed and where it has yet to go.

ZLATIBOR FOR SPORTS LOVERS

Walking routes: What Zlatibor is famous for and what majority of guests enjoy most are walks around Zlatibor. A walk as a cyclic movement is one of rare physical activities that can be performed by everybody.

Bicycle tracks: Because of the mild ups and downs of the terrain, riding a bike is a real pleasure for lovers of this sport.

Extreme sports: Thanks to suitable terrain and convenient air currents, paragliding has become more and more popular extreme...

Collective and individual sports: The most popular and the most attractive team sport in the world is definitely football. And right here in Zlatibor, along with the exceptional climatic conditions, good basis for basic training is completed by modern infrastructure
