For the Karate competition, ISF General Competition Rules were applied when calculating the official medal table. Accordingly, only disciplines with participation from a minimum of three delegations have been considered for inclusion in the official medal standings. Medals awarded in categories with fewer than three delegations have not been counted in the official table. However, these medals were still presented to the young athletes as a gesture to encourage participation and to promote fair play and the true spirit of school sport.

We thank all participants and delegations for their understanding and continued support of the values we uphold at ISF events.

For the Karate competition, ISF General Competition Rules were applied when calculating the official medal table. Accordingly, only disciplines with participation from a minimum of three delegations have been considered for inclusion in the official medal standings. Medals awarded in categories with fewer than three delegations have not been counted in the official table. However, these medals were still presented to the young athletes as a gesture to encourage participation and to promote fair play and the true spirit of school sport.

We thank all participants and delegations for their understanding and continued support of the values we uphold at ISF events.
