ABOUT ISF WSC COMPETITION

INTRODUCTION

ISF World Schools Championships (WSC) are events characterized by a balanced programme between sport and educational content: the balance between sport and education is to create awareness about the role of sports in putting forward topics such as fair play, healthy lifestyle, respect, and inclusion.

WSC is open to the participation of school teams. Besides the name of the respective member, teams will defend the colors and name of the specific school they represent. This format is meant to create a strong identification between the students and the school they attend. WSC is a team competition, meaning that team results are awarded by trophies, medals, and certificates.

Each ISF member may enter the competition with more than one school team per category. School Sport Entities or Schools from School Sport Entities that are not members of the ISF can take a part in ISF events provided that they follow all ISF regulations and that the institutions that wish to enter the event are recognized by an official national or sport authority.

Age categories for WSC's are outlined in their respective sport-specific rules. The educational programme and the sport format of the event shall always be adapted to the age of participants: in general, in events for lower age categories, the educational content will have a more prominent role.

SAFEGUARDING CHILDREN IN SPORT & ANTIDOPING WORKSHOPS

As well as various webinars taking place several days before the event to support the Head of Delegation and Coaches in preparing their mission within an ISF event (these online educational & capacity building activities are compulsory to attend for all the following adults' stakeholders taking part in ISF events), the ISF's promotion of school sport by the ISF Academy through its international events also involves the transmission of knowledge through workshops on two themes that are dear to us all: **Safeguarding Children in Sport** and **Doping Prevention in Sport**. ISF firmly believes that children have and must have the necessary inner resources, through these workshops, to understand, identify and react to negative behaviour such as racism, gender inequality or violence and abuse. The challenge for ISF is to find the right way to express difficult ideas and present complicated topics to young people so that they understand, but also so that they correctly apprehend this problem and are able to react to it.

Raising awareness and enabling participants to transfer their knowledge to their peers back home are also key elements of ISF. During this event, athletes from all over the world will attend several workshops sessions given by experts in the field, passing on their knowledge and experience through dedicated, constructive and interactive pedagogy.

ISF ACADEMY

PHYSICAL EDUCATION TEACHERS SEMINAR

Whoever said that acquiring knowledge and skills is reserved only for the youth?

The ISF Academy has recently taken on another challenge: to train Physical Education teachers, enhancing their skills and giving them the best tools to promote sports within the school environment. During the event, the ISF Academy, in partnership with International Sports Federation and/or the LOC, will organise workshops for national PE Teachers aiming at providing pedagogical tools and innovative exercises to better engage young individuals in sports and develop life skills through the sport. This activities will be open to any PE Teachers as well.
