ISF ACADEMY

The ISF Academy is the educational center of the International School Sport Federation delivering online and onsite capacity-building activities for teachers, school sports representatives, coaches, officials, and students around the world. It aims to recognize and or to upgrade the knowledge and skills of any of these stakeholders involved or planning to be involved in national, continental, or international sports, educational networks, institutions, events, or organisation.

The mission of this body is to design and deliver short-, mid-, and long-term quality education and capacity-building activities for students, physical education teachers, national school sport representatives, coaches and officials around the world. These educational programmes will be held online on the ISF Academy platform prior to the events and particularly during the organisation of ISF events on-site, after the competition hours.

Therefore, before and during this international ISF event, heads of delegation, coaches, referees, international school athletes, and local school students will have the opportunity to take part in various interactive educational activities on different topics.

ISF ACADEMY

HEADS OF DELEGATION AND COACHES PROGRAMME

The ISF Academy will organise an online webinar, a few weeks before the event to support the Head of Delegation, Coaches in preparing their mission within an ISF event. These online educational & capacity building activities are compulsory to attend for all the following adults' stakeholders taking part in ISF events:

- 1) Heads of Delegation **(Compulsory)**
- 2) Coaches **(Compulsory)**

The programme will be composed of different modules related to the ISF, the Organising Committee, and several crucial subjects related to Safeguarding Children in Sport, Anti-Doping, and Event Ecosystem.. Other topics might be added as well.

Any adults having key responsibilities towards, the ISF, the Local Organising Committee, and ultimately school students within an ISF international event shall be taking part in this crucial educational programme which will contribute to supporting these adults in their duty and mission before, during, and after the event.

Important: The head of the delegation and the coaches will have to participate in the complete training programme to be authorized to receive accreditation for the event.

Note: The Head of Delegations and Coaches will be informed in due time of the dates of the online webinar. The detail programme of this webinar as well.

After each online workshop, participants will receive a link to complete assessments. To validate their certificate of completion, each participant must have a minimum of 50% success rate to all the assessments before receiving the certificate.

SAFEGUARDING CHILDREN IN SPORT & ANTIDOPING & INJURY PREVENTION WORKSHOPS

As well as various webinars taking place several days before the event to support the Head of Delegation and Coaches in preparing their mission within an ISF event (these online educational & capacity building activities are compulsory to attend for all the following adult stakeholders taking part in ISF events), the ISF's promotion of school sport by the ISF Academy through its international events also involves the transmission of knowledge through workshops on three themes that are dear to us all: **Safeguarding Children in Sport, Doping Prevention in Sport and Injury Prevention**.

ISF firmly believes that children must, through these workshops, develop the necessary inner resources to understand, identify, and react to negative behaviors such as racism, gender inequality, violence, and abuse, as well as to gain proper knowledge about doping and appropriately address mental health issues among athletes.

The challenge for ISF is to find the right way to express difficult ideas and present complicated topics to young people so that they understand, but also so that they correctly apprehend this problem and are able to react to it.

Raising awareness and enabling participants to transfer their knowledge to their peers back home are also key elements of ISF. During this event, athletes from all over the world will attend several workshop sessions given by experts in the field, passing on their knowledge and experience through dedicated, constructive, and interactive pedagogy.

Therefore, **all athletes participating in ISF events are required to attend the ISF Academy's seminars** on safeguarding children, anti-doping, and Injury prevention. These seminars are scheduled to **take place on November 13th - 19th**, in the afternoon after competition. Specific delegation time slots will be communicated during the event briefing.

Before your trip, make sure your phone supports eSIM, and consider purchasing a plan that matches your data needs. Once activated, eSIMs provide reliable coverage across major cities, including Brasília, Rio de Janeiro, and São Paulo, making it easy to stay connected throughout your visit.
