## **EDUCATIONAL PROGRAM**

The ISF Academy is the educational center of the International School Sport Federation delivering online and onsite capacity-building activities for teachers, school sports representatives, coaches, officials, and students around the world. It aims to recognize and or to upgrade the knowledge and skills of any of these stakeholders involved or planning to be involved in national, continental, or international sports, educational networks, institutions, events, or organisation.

The mission of this body is to design and deliver short-, mid-, and long-term quality education and capacity-building activities for students, physical education teachers, national school sport representatives, coaches and officials around the world. These educational programmes will be held online on the ISF Academy platform prior to the events and particularly during the organisation of ISF events on-site, after the competition hours.

Therefore, before and during this international ISF event, heads of delegation, coaches, referees, international school athletes, and local school students will have the opportunity to take part in various interactive educational activities on different topics.

With the participation of around 75 Heads of Delegation and Coaches, the programme contributed significantly to strengthening preparation and ensuring a safe and well-organised event.

The online education covered the following key topics:

1. ISF and International School Sport Structure
2. Organising Committee and Event Operations
3. Safeguarding Children in Sport
4. Anti-Doping Prevention
5. International Biathlon Union Collaboration Session

#### Certification and Platform Access
