ISF ACADEMY ACTIVITIES

The ISF Academy is the educational center of the International School Sport Federation delivering online and onsite capacity-building activities for teachers, school sports representatives, coaches, officials, and students around the world. It aims to recognize and or to upgrade the knowledge and skills of any of these stakeholders involved or planning to be involved in national, continental, or international sports, educational networks, institutions, events, or organisation.

The mission of this body is to design and deliver short-, mid-, and long-term quality education and capacity-building activities for students, physical education teachers, national school sport representatives, coaches and officials around the world. These educational programmes will be held online on the ISF Academy platform prior to the events and particularly during the organisation of ISF events on-site, after the competition hours.

Therefore, before and during this international ISF event, heads of delegation, coaches, referees, international school athletes, and local school students will have the opportunity to take part in various interactive educational activities on different topics.

ISF ACADEMY

EDUCATIONAL ACTIVITIES

You will find below a non-exhaustive list of themes that will be proposed to young athletes during this event:

- safeguarding & Mental Health in sport
- Anti-Doping prevention in Sport

Please note that these activities are compulsory to attend during event particularly for the school athletes. The educational activities will take place on the 4-5th of November.

ISF ACADEMY

EDUCATIONAL ACTIVITIES

HOLISTIC ATHLETE PROTECTION

We believe that young athletes possess the inner strength and resources, when educated, to understand, identify, and address threats to their well-being—ranging from **mental health challenges to negative behaviors like harassment, abuse, discrimination, and violence.** The challenge for ISF is to present these essential topics in an engaging, accessible way so that participants not only grasp these concepts but also know how to protect themselves and support their peers. Fostering awareness and empowering participants to share this knowledge with their home communities is central to ISF's mission.

The Holistic Athlete Protection workshop is designed **with interactive exercises, accessible metaphors, and intuitive images** to help young athletes from around the world easily understand and learn. In this condensed 20-minute session, participants will explore the **concept of SafeSport as an environment designed to foster complete, holistic athlete well-being, awakening athletes to the reality** that mental well-being matters just as significantly as physical performance. The seminar addresses the vital intersection of mental health and athlete safety, providing actionable insights into recognizing risks, understanding individual roles in prevention, and supporting each other in times of crisis.

EDUCATIONAL ACTIVITIES

ANTI-DOPING PREVENTION EDUCATION

Anti-doping education is of the utmost importance for young people due to several compelling reasons and we believe that young people have the inner resources to fully understand, identify and react in front of negative behaviour such as doping.

The challenge for ISF is to find the **right way to express difficult ideas and present complicated topics to young people** in order for them, **not only to understand but also to appropriately apprehend this issue and be able to react if facing it**. Creating awareness and giving the opportunity for the participants to able to transfer their knowledge when getting back home to their peers is also key to ISF.

Anti-doping education goes beyond the realm of sports. It serves as a platform to impart valuable life lessons and cultivate ethical values in young individuals. By emphasizing the importance of honesty, integrity, and personal responsibility, anti-doping education contributes to the moral development of young athletes. It encourages them to make informed choices, stand up against cheating, and develop a strong sense of integrity that extends beyond the realm of sports and into other aspects of their lives. anti-doping education plays a crucial role in shaping the attitudes and behaviors of young people involved in sports.
Educating them about the risks, consequences, and ethical implications of doping, promotes health, fair play, and integrity while providing them with the necessary tools to make informed decisions that align with their long-term well-being and athletic aspirations.

The law and the rules are important, but it is not just rules that safeguard our sport for clean athletes, but also the measures and processes that help put those rules into action. We must all play our part in promoting fair play and that means gaining an appreciation of what leads to certain decisions being made.
